

Thank you—

the phrase is simple and the words are few,  
but behind them lies a world of appreciation.

Dr. Ceydeli,

Special people like you  
make the world a brighter place.

I just wanted to "thank you"  
for coming to see me in the  
ER and for all your concern and  
efforts. You are a wonderful  
person, as well as a great doctor!

Wendy
