

Dr. Ceydeli,

Two little words--THANK YOU.....just somehow do not seem enough to express my sincere gratitude for what you did for me..

I believe in God and I trust in Him and I believe that He went before me and prepared the way for me to see you and have my surgery.

First, NO other surgeon wanted to even look at me; much less take me on as a patient after the surgeon in Columbus, Georgia.. You were not only willing to see me; but to operate to correct the problem.. I saw you on Wednesday; you re-arranged your surgery schedule for Friday so that I could be your FIRST patient; this was God at work--preparing the way.

I was literally SCARED to death--- I did not think that I could have another surgery-- after all I went through at the hands of the doctor in Columbus and the lack of care I received at the hands of the hospital staff-- I feared for my life should I have another surgery and be back in a hospital.

When you opened the door of your office to tell me and my friend, Sue, hello and that you would be right with me; I felt an instant PEACE come over me.....It was if God had spoken to me and said this is the man that will help you... I never feared you for one second; even though I did not know you and knew absolutely nothing about you... I felt a peace about you..... When you examined me and talked with me-- I knew then that you were a loving, kind, caring man -- that CARED about his patients-- I was not just a number to you nor another \$ sign. I THANK you for this.. I THANK you for caring about other human beings.. God has given you a GREAT talent and I pray that you will continue to use it to glorify Him and to help others.. I pray that God will RICHLY bless you and your family. I pray that He will pour out many blessings on you.. If you will continue to be the man you are and the doctor you are.....God will show you many great things in this life.

The girls in your office were amazing- so kind and gentle and helpful..

The hospital staff-- from the moment I walked in on April 23, 2008 to -pre-register-- they were AMAZING..... They were all so kind and gentle and caring.. NOT one single person during my time at the hospital was ugly ,or hateful or rude to me... They treated me with the utmost care and respect and did everything in their power to make me feel at peace and safe; because they knew I was very nervous about another surgery.

You, Dr. Ceydeli, and the staff that I encountered at Bay Medical, deserve a BIG pat on the back.. You all gave true meaning to the words -- We care about you and others....For this , I will forever be indebted to you all..

Again, these words seem so small but they are said from the bottom of my heart.

THANK YOU...

God Bless You All,
